

COMMON's Award-winning Speakers

What makes COMMON conferences so valuable? The insights and expertise shared by our outstanding speakers. COMMON sessions are taught by the best of the best—IBM developers, leading industry experts, and the “big names” in the iSeries world.

Come to the COMMON Spring 2006 Conference for your chance to see speakers like **Randall Munson**, President of Creatively Speaking®, who has won an amazing 65 Gold Medals for Speaker Excellence for his renowned sessions at COMMON. Attendees flock to Randall presentations not only because he is a thought leader in the industry, but also because of his distinctive mix of motivation, magic, and humor. Make sure you add one or more of his remarkable sessions to your schedule for the Minneapolis conference!
